I had the pleasure of attending a permanent makeup training course in 2019 with Tish. As someone who has taken several beauty courses in the past, I can confidently say that her wealth of knowledge is superior.

The comprehensive curriculum covers everything from basic techniques to advanced artistry, ensuring that students are well-equipped to excel in their careers. The hands-on course proved to be invaluable!

Overall, if you're considering a career in permanent makeup, or simply want to enhance your skills, I highly recommend training with Tish. Her expertise, dedication, and teaching approach make her an outstanding instructor, and I am so grateful for the knowledge and skills she provided.
