ENCOURAGER & HOPE LUMINARY- Sharing God's Love & Grace

I have been a Medical Aesthetician and a Permanent Makeup Instructor and Makeup Artist for over 30+ years. Worked in plastic surgery as well as cosmetic dermatology at UT Southwestern and some of the nicest spas in the Dallas, Ft Worth area. The Hamptons, NY, and the Black Hills of SD.

I have known Tish for most of my career. Out of all of the instructors I have worked with, I believe Tish is one of the very best! Her skill and knowledge surpass most technicians and she makes it a priority to stay on top of the best pigments, tools, numbing creams, etc. Not only for cosmetic tattooing but for medical tattooing as well. It is almost a lost art in today's world to be able to find a technician who truly knows what they are doing with areola, scar camouflaging, and all medical treatments.

Tish is simply a beautiful person to be around, with a great laugh and always ready to listen and help someone in need with an "ok Honey" To warm your heart and make you feel comfortable. Whether for personal or professional purposes. Your day will be brighter by seeing her. I highly recommend Tish as she is also my permanent makeup technician.

Thanks,

Erika
